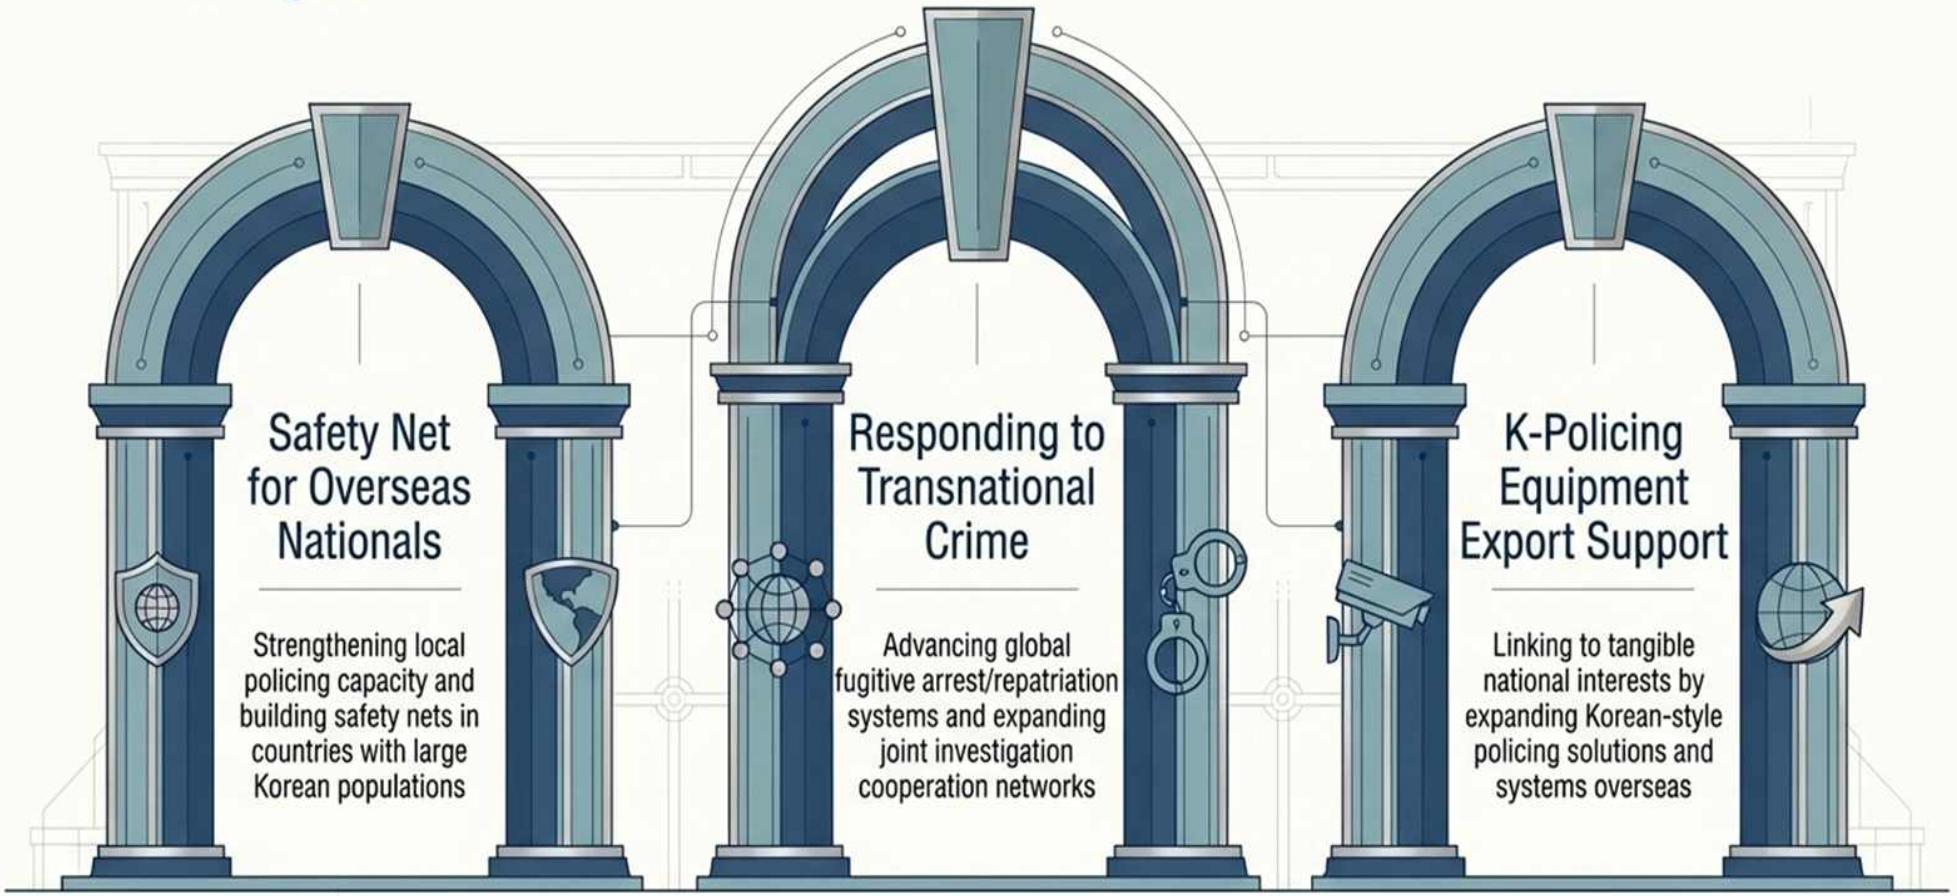
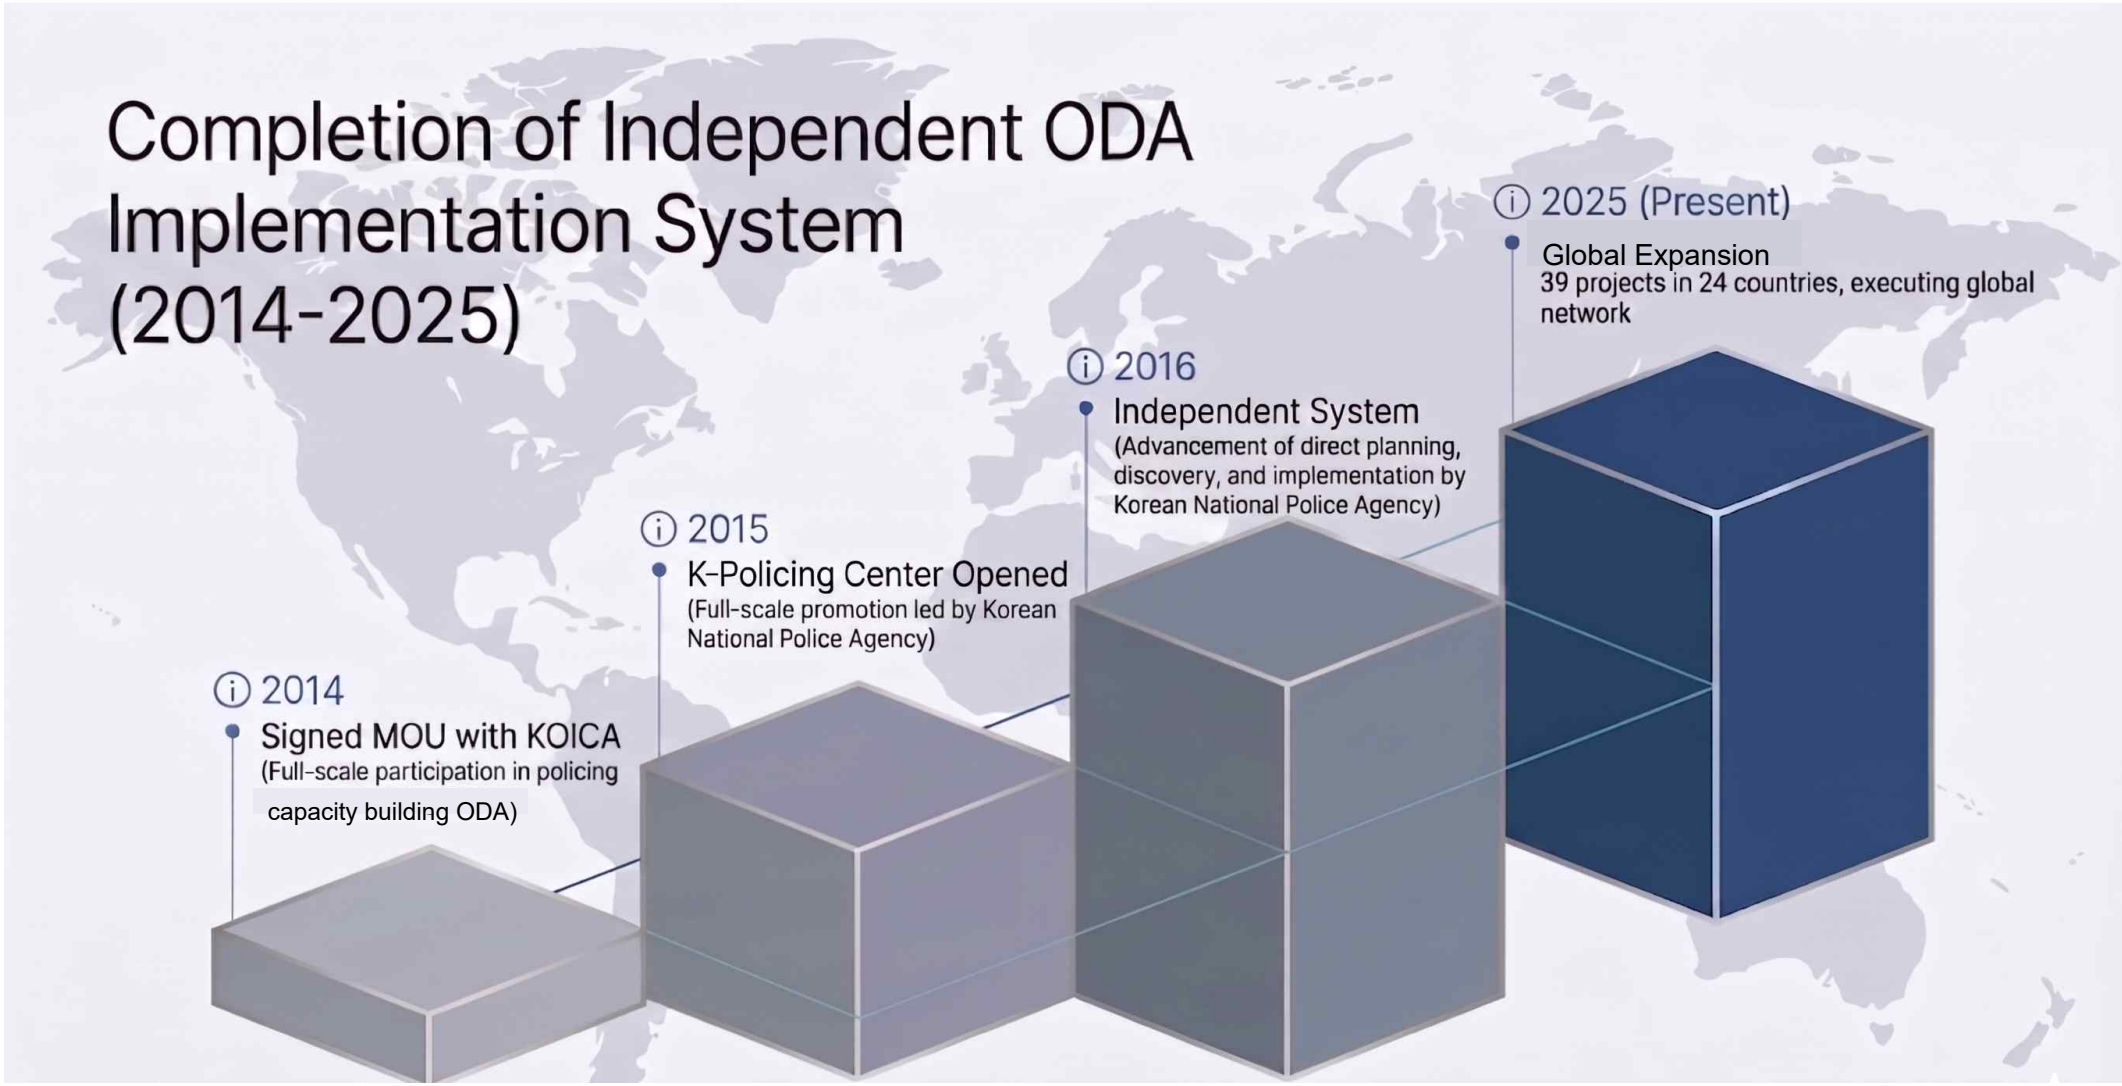
K-Policing, Beyond the Global Safety Net

2026 National Police Agency ODA Strategy Report: Expanding the Global Policing Network

3 Core Strategies of K-Policing ODA

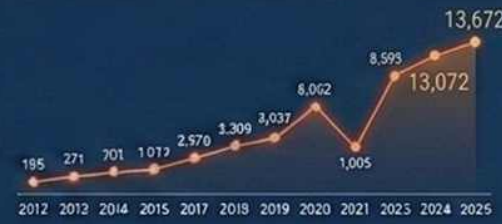




Completion of Independent ODA Implementation System (2014-2025)
2014
Signed MOU with KOICA
(Full-scale participation in policing capacity building ODA)
2015
K-Policing Center Opened
(Full-scale promotion led by Korean National Police Agency)
2016
Independent System
(Advancement of direct planning, discovery, and implementation by Korean National Police Agency)
2025 (Present)
Global Expansion
39 projects in 24 countries, executing global network

Global Policing Cooperation Footprint: Globalization of K-Policing

Expert Dispatch · Invitational Training Status



Countries Dispatched to (Cumulative):
45 Countries

Cumulative Dispatch Education:
8,341 People

As of Jan 2026

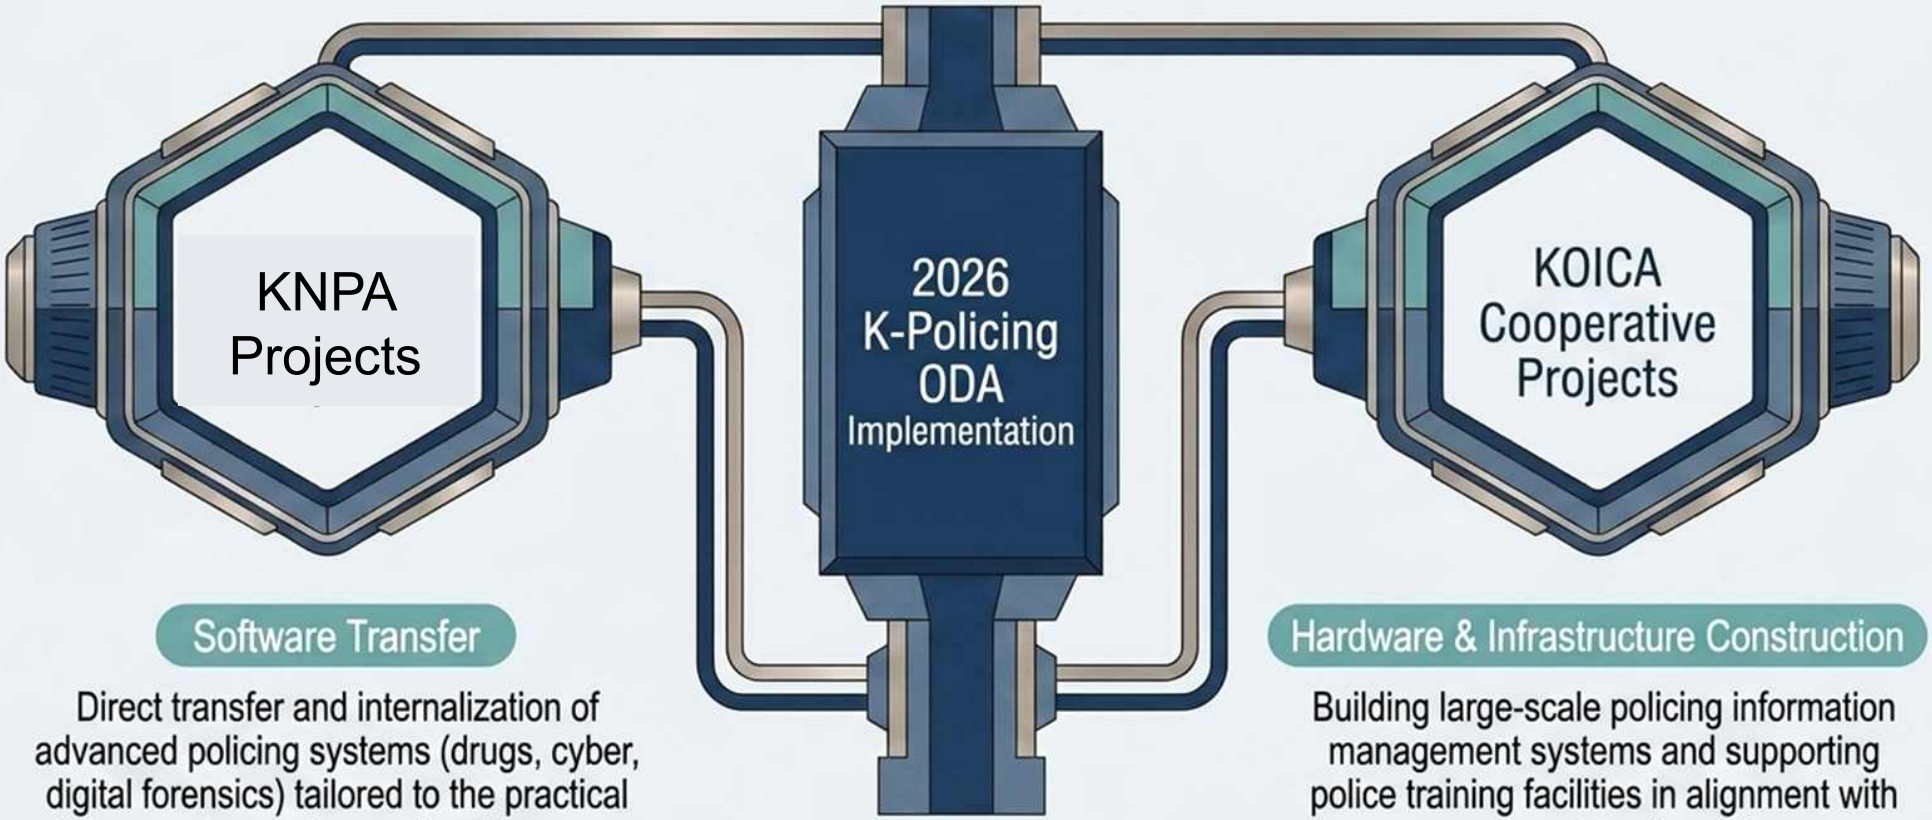
Countries Invited for Training (Cumulative):
84 Countries

Cumulative Invited Education:
5,286 People

As of jan 2026

As of 2025, Total 24 Cooperative Countries, 39 Ongoing Projects.

2026 ODA Dual-Track Implementation Strategy



Software Transfer

Direct transfer and internalization of advanced policing systems (drugs, cyber, digital forensics) tailored to the practical diplomacy focused on national interests.

Hardware & Infrastructure Construction

Building large-scale policing information management systems and supporting police training facilities in alignment with government foreign policy.

Synergy Creation Matrix: Self-Initiated Projects vs Cooperative Projects

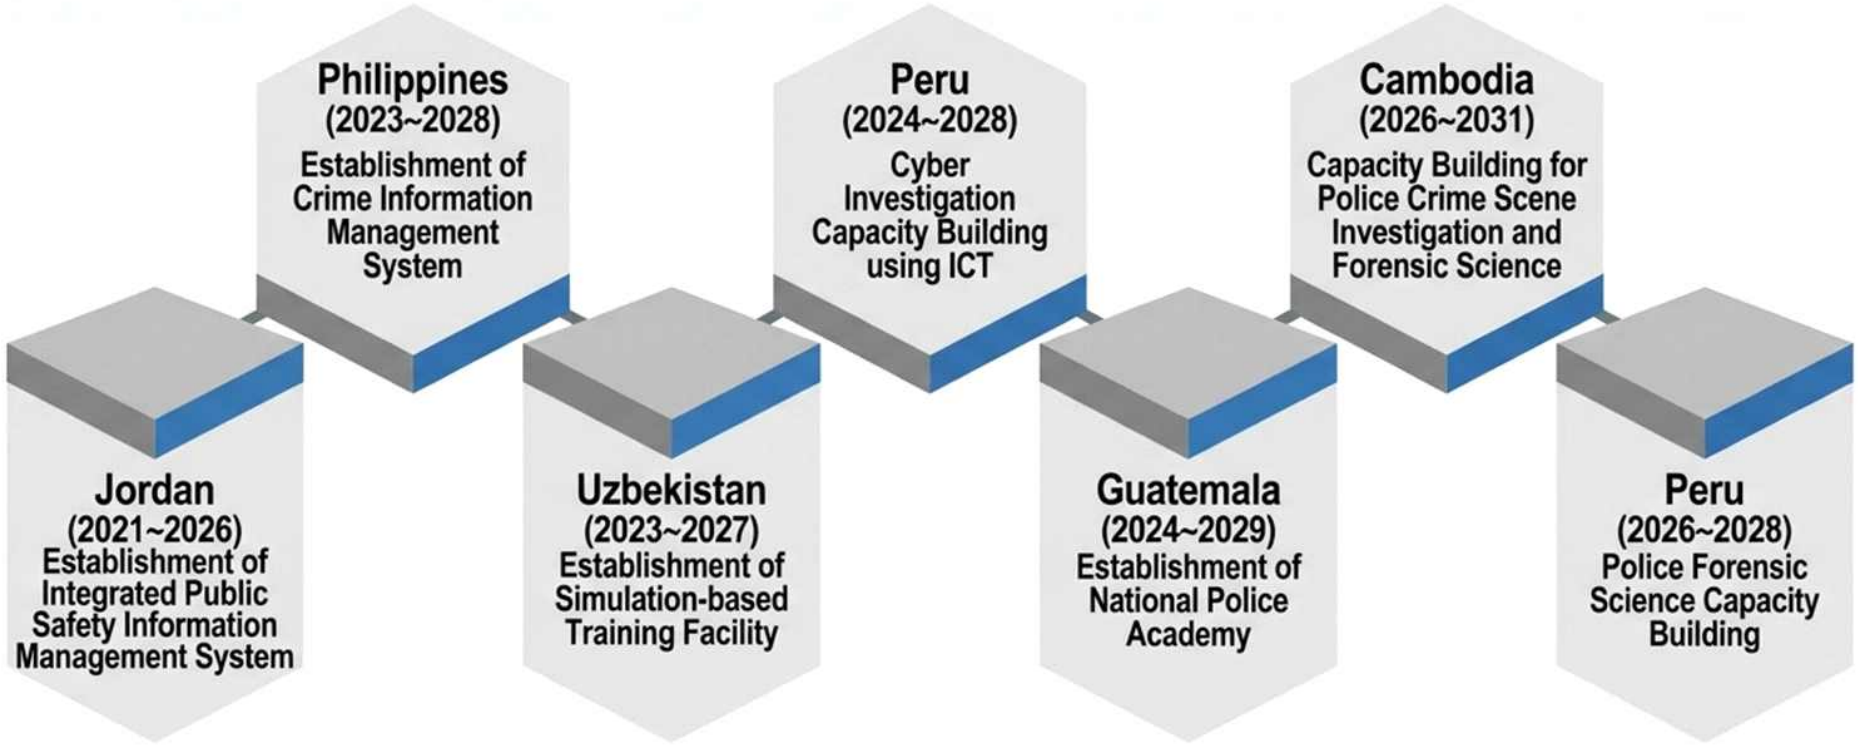
	KNPA Projects	KOICA Cooperative Projects
Core Competency	Korean-style Advanced Investigative Techniques (K-CSI, Cyber)	Large-scale National Policing Management System
Key Support Forms	Tailored Advisory on Advanced Techniques (K-CSI, Cyber), Strategic Capacity Building	Establishment of Training Centers, Comprehensive Simulation Centers, IT Network Construction (Infrastructure-Focused)
Project Scale & Duration	Pinpoint Support for Specific Advanced Areas (5 Projects Planned for 2026)	Large-scale Comprehensive Support over Multiple Years (7 Projects Planned for 2026)

DETAILED PORTFOLIO
1. POLICE AGENCY SELF-INITIATED PROJECTS (ADVANCED CAPABILITY TRANSFER)

We are transplanting the Korean policing model by concentrating capabilities in advanced investigation fields such as digital forensics, narcotics, and cyber.

Detailed Portfolio

2. KOICA Cooperative Projects (Infrastructure & Systems)



We improve the fundamental public safety constitution of partner countries through large-scale, multi-year projects linked to government foreign policy.

Key Achievements: Global Standardization

Transferring K-Policing Capabilities

Leading Global Safety Standards via Digital & Forensic Systems.

Protecting Overseas Citizens

Creating an International Safety Net by Strengthening Local Capabilities.

Fostering International Collaboration

Building robust partnerships to combat transnational crime effectively.

Beyond Aid: A Core Pillar of Global Public Safety, Fostering International Cooperation
K-Policing ODA enhances global public safety standards and fosters international cooperation
K-Police Global Network
